

Cofounder & Country Manager Bangladesh

[Apply Now](#)

Company: 1010 Solutions

Location: Ruppur

Category: other-general

Production Partner/ Country Manager for 1010 Solutions

The role will start as a part-time and later evolve to a full-time role of Co-Founder

WHAT WOULD BE YOUR MISSION?

- Team up with leading scientists in marine biology, marine engineering, chemistry, environmental science and water management in order to build a set up for the Research and run it.
- Supply necessary equipment, run the sampling, testing in the laboratory and report on a daily basis.
- Obtain regulatory approval to use patented biotechnology for pollution removal through river cleanup
- Lead team conducting Environmental Impact Assessment, feasibility study, and pilot-scale operations in a 1-hectare pond
- Create a microalgae production facility for river cleanup
- Meet regularly in person the 1010Solutions core team and learn to apply our technology for best practices
- Build your own team of highly motivated impact Entrepreneurs

WHO IS OUR BEST MATCH?

- You have a university degree (Bachelor's and/or Masters) in Environmental Science, Mechanical Engineering or similar field

- You have hands-on experience with production/ manufacturing
- You have 2 years of hands-on experience leading a team
- You have an entrepreneurial spirit
- You have shown you can work in a team and deliver results together on time
- You love to work on new topics, have a pragmatic approach, and strive to take responsibility for your projects
- You love to communicate and can turn complex information into plain language and convincing messages
- You speak fluent English

WHAT DO WE OFFER?

- Become part of something bigger! We join forces to build a planet-positive economy and make our ambitious OKRs reality
- Attractive equity package of local and global shares
- At 1010 Solutions you can do what you love and are best at, while doing good and creating real-world impact
- You will become part of a collaborative and cross-functional environment, supported by regular knowledge sharing sessions, where you will be empowered through ownership
- We are ever-evolving and so are you.

A formalized bi-annual feedback process, meeting ratings,

Lets do good and have some fun! We are looking forward to hearing from you!

At **1010 Solutions**, we believe that diversity builds resilience. Therefore, we value all perspectives brought to the table within our team, while we are creating a planet-positive economy.

We are here to focus on our strengths and work as a team to learn, grow, and build amazing things together.

ABOUT US

At **1010 Solutions** we made it our mission to build the best water-positive technology for the planet. After years of R&D, we believe that we can make a difference by removing pollutants.

As we see ourselves as 'for-purpose - for-profit', we're committed to employing all

entrepreneurial abilities to solve one of our generation's most pressing problems with the help of biotechnology, data, and outstanding entrepreneurial people.

We're a biotechnology company that believes people are essential. If you want to become a part of our mission of making the business world more sustainable, we are thrilled to hear from you.
